

Bid Options by Category

The Bid tasks listed in this table are found in Vendor Web and MUST be selected correctly when bidding.

- There is one additional bid task called “Preserve the Property”, found in the GPI section of VW, which should only be used AFTER all other bid tasks have been ruled out.
- Using the Preserve the Property task in place of the correct task will result in re-opened orders, bid denials, and unnecessary bids. The creation of unnecessary bids will directly and negatively affect performance.
