

Exterior Trash Removal Photo Requirements

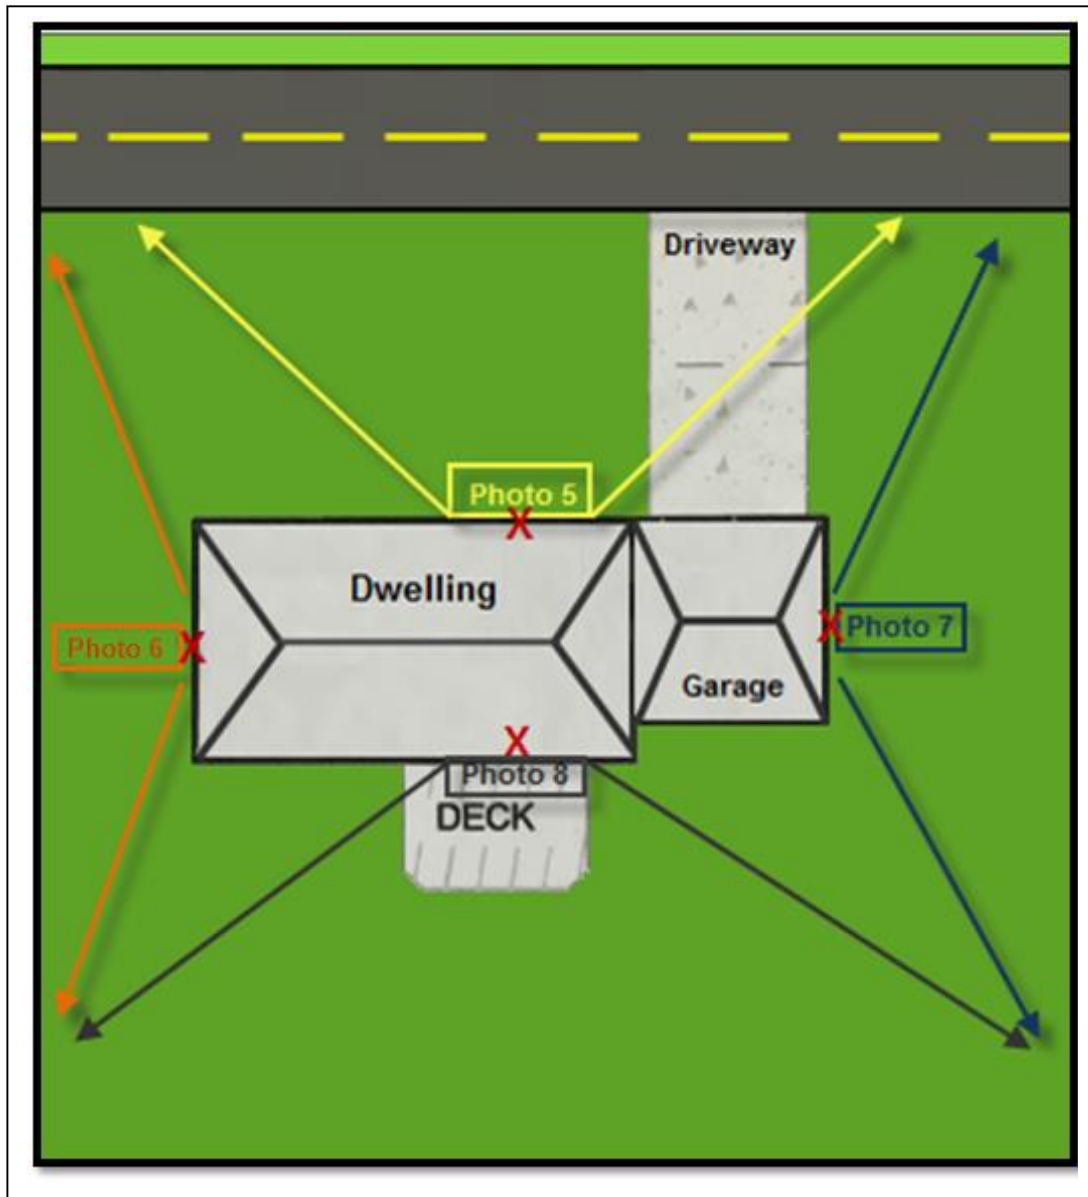

On all orders where instructions and designated allowables exist, vendors are required to assure all health hazards have been removed from the interior and exterior where applicable, all trash has been removed the exterior of the property, and any personals have been consolidated using an allowable OR bid for consolidation should an allowable not be present.

When completing the vendor web update and the property has been deemed vacant, the below 8 required photos will be required on every order and must be placed in the General Property Information photo section.

- Front, Side, and Rear Facing Photos of the dwelling showing the Property Free of Trash:

- Front, Side, and Rear from the perimeter of the dwelling looking towards the property lines showing the property free of debris.

*In the rare instance where exterior trash cannot be removed for the allowable, a detailed bid with supporting photos should be provided in the update.
