## **Safeguard Properties Winterization Checklist & Documentation Sheet**

It is important for each contractor to provide photo documentation which supports each step during the winterization process. You must provide and illustrate in-depth photos which highlight each step on the Winterization Checklist. This will be required for all initial service orders and all winterization orders in order to receive payment. If you have any questions, please reference Memo # 1922 which provides direction on the winterization process.

I. Disconnecting Water Supply — Shut water off at curb Install zip tie correctly on main shut off valve Water meter disconnected? Yes / No Main water line plugged? Yes / No Photo documentation of the above? Yes / No II. Draining the System — Shut off gas or electric to water heater Drain water heater, outside or floor drain	Water: Well/Well/Well/Well/Well/Well/Well/Well	City Off Off No
Inployee's Name:	Gas: On / C Gas: On / C Property Frozen on Arrival? -If Yes, provide a detailed description:  he property:  V. Adding Anti-Freeze — Add anti-freeze to all toilets, bowls and tanks Add anti-freeze to all sink P-traps Add anti-freeze to all shower and/or tub P-traps Add anti-freeze to all floor drains Add anti-freeze to dishwasher drain Photo documentation of all the above? Yes / No  VI. Stickers —	Off Off No
cument any pre-existing plumbing system and/or water damages to shut water off at curb   Install zip tie correctly on main shut off valve   Water meter disconnected? Yes / No   Main water line plugged? Yes / No   Photo documentation of the above? Yes / No   Install zip tie correctly on main shut off valve   Water meter disconnected?
